HOME DEMONSTRATION PROGRESS RECORDED IN UTAH

Prepared by W. A. Lloyd.

 UTAH accomplished 89 2/3 per cent of all project goals in home demonstration work in 1923, according to the report of Mrs. Rena B. Maycock, the State home demonstration leader. Following is a comparison of the development of home demonstration work during the past four years. Mrs. Maycock stated that only the results supported by records were reported and that even a larger volume of work was accomplished.

Comparisons in Development of Home Demonstration Work, 1920-1923.

Item.	1920	1921	1922	1923
